SPONSORSHIP INFORMATION

CORPORATE / BUSINESS & INDIVIDUAL

"Empowering young athletes to live as
CHAMPIONS!"

Southern Select Volleyball is a youth girls' volleyball club based in Lakeland, FL. We serve Lakeland and surrounding areas of Polk County.

We are dedicated to the development of athletes, coaches and parents in the Central Florida region by providing various levels of training and performance opportunities. We provide a quality program, focused on growing the sport by fostering a love of the game and creating a volleyball community, driven by the knowledge, professionalism and experience of our elite coaching staff.

Each season we provide high level volleyball skill training and team concepts to increase the volleyball knowledge and overall athleticism of each individual player. We also develop an understanding of "teamwork" and what it means to be a part of team that conducts itself with a Champion mindset. This includes hard work, dedication, sportsmanship, and integrity.

Southern Select Volleyball was officially created in 2010. Though there were other clubs operated under the same premise in Lakeland before, Southern Select Volleyball began its roots in 2010 under the leadership of then Florida Southern Head Volleyball Coach Jill Stephens and the direction of FSC Assistant Coach Brian Imperiale. SSV has always had the same mission and goal, to provide an opportunity for young female athletes in Lakeland and the expanded Polk County community a home to play volleyball outside of schools. We have always focused on growing the sport and fostering the love of the game.

Over the years, the director position has changed, with the constant connection being to Florida Southern College. Since its inception, SSV has been owned and directed by the volleyball staff at Florida Southern College. This has allowed for elite volleyball knowledge to be shared and also provided an opportunity to connect the community to the college, including the college volleyball team. Through the club's development the focus of growing the sport and fostering a love of the game has remained prevalent as the club maintains a standard of hosting 6-10 teams a year. This allows us to focus our attention on player development and growth. Though it is always a dream to grow and expand... our main focus is on our athletes!

For the past seven years, Southern Select Volleyball has been directed by Chris Keen, who took over the club when he joined the Florida Southern College Volleyball staff as an assistant coach in 2013. Keen, now FSC Head Volleyball Coach and owner of Southern Select Volleyball, has consistently focused on the mission and goals of SSV. We now have a top-level staff of high school and college coaches and athletes from the area. Through our top tier staffing and knowledge, Southern Select Volleyball is dedicated to a champion mindset, empowering young female athletes and growing the love of the game.
